STATEMENT

(In the space below, please provide the showing of unavoidable delay recited in paragraph 8 above.)

Since 2007, the lack of money has kept me from meeting the obligation of Maintenance.

The following will explain my predicament.

In the last part of 2007 & early 2008, after 23 years in a retail business, despite my normal advertising program. Customers became scarce, then for a period of three months less than 90% of normal sales. We lost thousands of dollars weekly. I closed the doors, and informed all of the accounts payable, that I would pay off the balances over time.

Deeply in debt, and aged 83, I could not find any firm that would hire me. I did all sorts of work and tried many things to make a dollar. Finally in 2010, I hit on a means to create a small flow of income. I had been living on my social security and kindness of my ex- wife.

At this time, I saved a portion of the fees and borrowed the balance to pay the patent maintenance fees. I have contacted a major firm who are preparing plans to start producing the mechanism in quantity. They have agreed to pay me a small royalty per unit, which will create adding many jobs and provide me with some income. If required I can provide the firm's name.

(Please attach additions' sheets if additional space is needed)
